

MODEL FLYING

The high plateau offers excellent conditions for model airplane pilots.

The designated airfields are easily accessible on foot.

For those who want to fly really high, we offer a beautiful airfield located at 2,400 m on the Fisser Schönjoch.

Model airfield: Fiss - Schönjöchl - 2,491 m

- Accessible by cable car
- High plateau at 2,491 m - stone-free take-off and landing area, constant flight opportunities - a special treat for high alpine and extreme model pilots
- Up to 4 metre wingspan
- No take off fee
- Magnificent panorama - panorama restaurant in the immediate vicinity
- Starting point for many beautiful hikes and mountain tours

Model airfield: Fiss - Perdatscher Bichl - 1,500 m

- 15-minute walk or 2-minute drive from the village
- Accessible - direction Rabuschl
- No starting fee!
- Beautiful, level take-off and landing runway, open manageable area, no trees, south-easterly wind direction, frequency board – battery charging station at the airfield, wingspan of the models from 10 cm to 6 m. A place where beginners, advanced pilots and professionals are sure take off with ease.

Model airfield: Serfaus - Serfauser Feld

- This airfield is privately owned
- Flying is only possible with the permission of the operators
